My dearest Mother,

I am so sorry that I have been unable to send the enclosed before: I have just had no time until this weekend.

I am glad that you are improving, and, as the weather seems to be getting milder, you may soon be able to get a little fresh air.

I went to the pictures with
 May one yesterday, for the first time
 for months. We saw 'The Spiral
 Staircase', which was quite good.
 We then went to tea at the RAC
 and, later, Duncan & Audrey
 came in & joined us. They had
 been to a matinee. Then, later
 still, Christopher & Jeremy joined
 the party. After Duncan & Audrey
 had gone, we had the family
 RAC dinner - including oysters.

J & A. had received a large woolly toy which I had sent the baby from New York. They will also get the silver christening mug in a day or two which had actually been despatched on Saturday, the day we met them.

You will probably shortly see in the papers that Power sets us to become a Government Establishment. I have been asked to continue as head of

The show — that is, Director of
the Establishment. I have
not yet decided to accept,
tho' I shall continue for
the time being.

We hope you will
continue to improve

With love from us all

Your own son

Harold.
