March 28th, 1924.

My dear Mother,

Everything received O.K.
as usual.

Unfortunately, Prof. Barstow hasn't had time to look into my mathematics yet. He is very busy just now, as there are the examinations on this week. Also I haven't been able to clear up my other work yet, but I'm still optimistic, though, unless things sift themselves out very quickly, I shall not be able to get my thesis in by June 5th. If one is late than that it delays things by about 3 months.

At the moment of writing (6 o'clock) I am not in possession of the latest strike news, but as you are aware, the Tubes are due to come out to night, and if the electric suburban lines do the same, I shall be stung, for Barstow won't be able to get in.

However, it probably won't last.
I'm afraid I have no more

QUITE A JOB
GETTING TO WORK
THESE DAYS — WHOA,
CONJURER! — ISN'T
IT PROFESSOR?

IT IS, THAT'S
A FACT, AND TO
MAKE THINGS
WORSE, I HAD
A PUNCTURE
JUST BY THE
DUNLOP SHOP
IN OXFORD ST.

to write
about, so
I will
draw
gracefully
to a
close.

I hope
you are
all
keeping
fit, &
that

Gina stem is
delight gain.
Give my love to
all,
Fondlest love,
Your own loving
Harold

My dear Mother,

Everything received O.K. as usual.

Unfortunately, Prof. Bairstow hasn't had time to look into my mathematics yet. He is very busy just now, as there are the examinations on this week. Also I haven't been able to clear up my other work yet, but I'm still optimistic, though, unless things sift themselves out very quickly, I shall not be able to get my thesis in by June 5th. If one is later than that it delays things by about 3 months.

At the moment of writing (6o'clock) I am not in possession of the latest strike news, but as you are aware, the Tubes are due to come out to-night, and if the electric suburban lines do the same, I shall be stung(?), for Bairstow won't be able to get in.

However, it probably won't last.

I'm afraid I have no more to write about, so I will draw gracefully to a close. I hope you are all keeping fit, & that G'ma Stern is alright again. Give my love to all,

Fondest love,

Your own loving

Harold
